

WET RESINS

Introducing the latest technology in the Blue Star Diamond™ family: the Wet Resin line. These wet resins are designed to compliment the BSD Ceramics, enabling contractors to achieve high-quality results in their concrete and terrazzo polishing projects. With the Wet Resins, contractors can expect the same level of quality, long life, and dependability that BORIDE products are known for.

Features

- Expected lifespan 6,000-8,000 ft²
- Available in 400, 800, 1500, and 3000 grits
- Velcro or Speedshift dovetail attachment
- Superior performance on soft to very hard concrete
- Designed to follow our Blue Star Diamond Transitional process
- For best results follow with high-speed burnish

Item #	Description	Size	Boss	Grit	Bond	Concrete Hardness
