

BSD™

Blue Star Diamond Technology

Designed as a ceramic diamond grinding process to follow the metal bond process. The result of this diamond is a superior floor with reduced steps. Long Life (9,000 - 15,000 ft²). Can be used wet or dry through 400 grit. 800 and 1500 dry grinding only. Can be run on small to medium planetary machines.

American Concrete Institute

Always advancing

PRODUCT FEATURES

- Long Life (9,000 to 15,000 ft²)
- Reduces metal bond steps
- Excellent finish
- Medium and small planetary machines

| Item # | Description | Size | Boss | Grit | Product Hardness | Concrete Hardness |
|--------|-------------|------|-----------|--------|------------------|-------------------|
